

Pete Smothers, Chief Operating Officer

Pete Smothers is Chief Operating Officer at Xamin, a leading provider of managed IT services for highly regulated and reputation-sensitive companies, where he is responsible for overseeing ongoing business operations and business development within the company.

In his experience at Xamin, Smothers has led technology projects for clients. He has consulted on virtualization technologies; disaster recovery and business continuity; security and network analysis; system architecture and design; and regulatory and compliance. Additionally, he has a wide depth of knowledge in network infrastructure, hardware, software and deployment techniques.

Previously, Smothers worked as IT Systems Manager at a large Civil Engineering firm, SEC Group, Inc., where he was tasked with the management of all aspects of the company's technology, including server and network infrastructure, telecommunications, mobile devices, internet and security.

Smothers holds a bachelor's degree in business administration from Western Illinois University, and his certifications include Microsoft Certified Systems Engineer (MSCE), Microsoft Certified Systems Administrator (MCSA) and VMware Certified Professional (VCP).
