

## Fact Sheet

**Xamin, Inc.***Managed IT Services for Highly Regulated and Reputation-Sensitive Companies*[www.xamin.com](http://www.xamin.com)

Xamin, Inc. offers industry leading managed IT services to highly regulated and reputation-sensitive organizations, including financial institutions, law firms, accounting firms and others. Through its suite of technology solutions including infrastructure, security, cloud, data protection and professional services, Xamin specializes in transforming IT to a revenue driving capability rather than a cost and compliance challenge. Its consultative, “white glove” approach ensures its services meet the needs of the customer and auditors. Critical to highly regulated and reputation-sensitive companies such as financial institutions, Xamin is compliance-focused with SOC2 Certification (less than 1 percent of MSPs).
