

Ben Fishbune, Solutions Architect

Ben Fishbune is Solutions Architect at Xamin, a leading provider of managed IT services for highly regulated and reputation-sensitive companies, where he is responsible for delivering strategic services to clients and providing expertise in technology, security and cloud services.

In his role, Fishbune provides clients with technology recommendations and business strategy; identifies IT and business challenges and aligns services and products as solutions; and develops IT strategies to ensure organizations meet existing and future requirements based on business goals and regulatory compliance.

Having worked at Xamin for over 10 years, Fishbune has a wide depth of knowledge in hardware, software and deployment used to help push strategic vision for clients. His technical specializations include virtualization, networking, security, backup and recovery and system design.

He holds a bachelor's degree in business and computer science from Eastern Illinois University, and his certifications include VMware certified professional (VCP), VMware Technical Sales Professional (VTSP), Microsoft Certified Solutions Expert (MCSE) and EC-Council Certified Security Analyst (ECSA).
