

## Jonathan Smith, Chief Executive Officer

---

Jonathan Smith is Chief Executive Officer at Xamin, a leading provider of managed IT services for highly regulated and reputation-sensitive companies. He is responsible for overseeing all strategic initiatives.

After watching his father build a thriving engineering firm in the midst of a recession, Smith was inspired to launch Chicago-based Xamin, Inc. in 1999, alongside Pete Smothers, Chief Operating Officer.

With more than 18 years of industry experience, Smith is deeply involved with new business development, finance, marketing and other efforts that influence his team's high-performing culture. Through his vision, Xamin has developed into a national leader in transforming IT into a revenue-driving capability for organizations through consulting, managing IT services and supporting integrations for a full suite of security, cloud and vendor solutions.

Prior to Xamin, Smith was a systems administrator for the SEC Group, Inc., where he was responsible for the integration, design and management of the company's IT systems. Smith earned his bachelor's in business information technology from Eastern Illinois University. Additionally, he is a member and recruiting board chair of the Chicago chapter of the Entrepreneurs' Organization (EO), focused on engage leading entrepreneurs to learn and grow.
