

Jeff Kuehn, Director of Technical Operations

Jeff Kuehn is Director of Technical Operations at Xamin, a leading provider of managed IT services for highly regulated and reputation-sensitive companies, where he is responsible for ensuring Xamin's solutions and services meet today's operational and security rules and requirements.

Having more than 20 years of hands on technical experience, Kuehn is a technology-focused leader with extensive experience implementing solutions and services to exceed organizational goals while meeting operational deadlines. As technology continues to rapidly change and evolve, he is focused on technical analysis, vendor relations and core technology concepts that solve his client's business challenges.

Additionally, Kuehn has worked as a technology consultant for local government organizations. He has also worked as an IT specialist, where he managed technology solutions for an agriculture supply company.

Kuehn holds a bachelor's degree in information technology with a focus on information security management.
